WORK EXPERIENCE

Front-end Developer   *Sep 2019 – Nov 2019*
TPS Software Corporation   Ho Chi Minh City, Vietnam

- I took responsibility for covert layouts from designs to e-commerce website pages.
- Working with my teams on a daily basis including discussing, figuring out issues, problems, reporting, finding new solutions and developing our projects.
- Ensuring these pages work well and match with layouts of designs.
- When I became a team leader in terms of interface sections, I divided our tasks to team members and managed issues of interface section of website.
- Working with testing team to make sure the quality of website from front-end to back-end.

Full-stack Developer Internship   *Sep 2018 – June 2019*
Ceres Solutions Software Company   Ho Chi Minh City, Vietnam

- Following the requirements of tasks daily and report to the task management system.
- Figuring out the issues and finding suitable solutions.
- Convert new figures/ sections into websites.
- Developing these functions to complete clients' requirements.
- In this company, I have more golden opportunities to learn various programing languages including PHP, Kohana, Yii…or working with WordPress.
